Experience

December 2025 - Date
GravityLabNg
Senior Frontend Developer

Led the development of scalable and responsive web applications using modern frontend technologies such as React and TailwindCSS. Collaborated with designers and backend developers to translate UI/UX designs into high-quality, maintainable code. Optimized application performance, implemented reusable components, and mentored junior developers while ensuring best practices in frontend architecture and code quality.

June 2025 - August 2025
Yaba Tech
Frontend Development Tutor

Taught students the fundamentals of frontend web development, including HTML, CSS, JavaScript, and modern frameworks. Guided learners in building responsive web applications and understanding best practices in UI development. Provided mentorship, code reviews, and practical projects to strengthen students' problem-solving skills and real-world development experience.

January 2024 - December -2024
GravityLabgNg
Intern

Assisted in developing responsive and user-friendly web interfaces using modern frontend technologies such as React and TailwindCSS. Collaborated with designers and backend developers to implement UI components, improve user experience, and ensure cross-browser compatibility. Participated in debugging, optimizing performance, and maintaining clean, reusable code while gaining hands-on experience in real-world web development projects.
